

Authority to Improve or Enhance Conservation - Preservation Easement

Preservation Easement:

To enhance the preservation easement area wildlife and vegetation, enhance enjoyment of the pristine environment, or to improve the water quality and drainage, property owners may conduct improvements within the preservation easement with this approved Authority to Improve or Enhance

The City of Franklin may elect to solicit the advice or approval of the Wisconsin Department of Natural Resources or other similar state agency, or require property owner to consult with an environmental Scientist about work to be done

Prohibited within the Preservation Easement:

Filling, grading or changing of grades;
Filling with yard waste or other landscape materials;
Removal of indigenous vegetation;
Planting of vegetation not native to the site or not typical wetland vegetation;
Construction of any permanent structure, fence, play equipment or the like;

Improvements:

Animal and bird feeding stations;
Park benches;
Removal of animal blockage of natural drainage;
Controlled removal of identified invasive species
Controlled removal of identified dead or diseased trees;

Limits of work:

Will be set in the field during an onsite visit
Wetlands and buffer zone will be determined on a case to case bases, using data of subdivision and other information as needed
Trees to be removed will be clearly marked;
Photo record will be submitted with permit of trees to be removed
